

INTERACT NEWSLETTER

FEBRUARY 2025

Thank you for your contribution to the INTERACT study. The INTERACT study is exploring whether an approach called Intensive Interaction can improve communication skills in children and young people with profound and multiple learning disabilities (PMLD). We appreciate all the time and energy that setting staff and the children/young people have put into recording and providing us with the INTERACT videos and completing teacher questionnaires across the study.

Special message from Prof. Jill Bradshaw, Co-Chief Investigator

“We are so pleased to have this opportunity to do some research around children and young people with PMLD within educational settings. Children with PMLD are such a small group but a group that have very big needs. Thank you so much for all your hard work. We have particularly enjoyed watching the videos of the staff interacting with the children and young people. We could not have done this research without you!”

£350 Thank you payment

Eligible settings will have received information on how to claim for the £350 thank you payment after completing the final questionnaires and videos.

Intensive Interaction Training

You will receive information by email on how to access online Intensive Interaction training in mid-late February.

Study Results

The results of the study will be available from winter 2027 onwards, following the three year study period.

That completes the 2023-24 phase of the study which involved 16 settings!
