

INTERACT

FEBRUARY 2025

PARENT/CARER NEWSLETTER

Thank you for your contribution to the INTERACT study. The INTERACT study is exploring whether an approach called Intensive Interaction can improve communication skills in children and young people with profound and multiple learning disabilities (PMLD).

We appreciate all the time and energy that parents/carers have put into completing questionnaires across the study

Special message from Prof. Jill Bradshaw, Co-Chief Investigator

“Thank you so much for allowing your child to take part in our study. Children and young people with profound and multiple learning disabilities are often not included in research and so we think this is a really important project. We are so grateful for your support and we could not have done this important research without you!”

£15 Thank you voucher

For participating in the study, you will receive a £15 voucher as a thank you. You will receive further information of this soon by email.

Intensive Interaction Training

You will receive information by email on how to access online Intensive Interaction training in late February if you wish to access this.

Study Results

The results of the study will be available from winter 2027 onwards, following the three year study period.

That completes the 2023-24 phase of the study!
